The University of Thessaly

The University of Thessaly was founded in 1984 and welcomed its first students in the academic year 1988-1989. Administratively based in Volos, it has developed in the whole region of Thessaly and Central Greece in Volos, Larissa, Lamia, Karditsa and Trikala. The UTH is organized in 8 Schools, 37 Departments and 71 Post-graduate Study Programs.

36,622 undergraduate and approximately 4,500 post-graduate students and doctoral candidates are currently studying at our University. It is staffed by 844 faculty members and 427 members of administrative personnel. Teaching is also supported by a large number of contractual instructors.

The University of Thessaly is a dynamically developing higher education institute which ranks in the top 1000 universities worldwide according to data from the Shanghai Ranking of World Universities, 2019 (<http://www.shanghairanking.com/>). Our mission is to promote knowledge through instruction and research and to contribute to the cultural and economic development on a regional, national and international level. To achieve its goals, the University seeks to create a learning environment promoting critical thought, innovation, freedom of expression and cultivation of loyalty to democratic ideals.

The Musical Ensembles of the University of Thessaly

The Musical Ensembles of the University of Thessaly are involved in many musical events and other activities having to do with all kinds of music, focusing mainly on the Greek repertoire. The members of the orchestra & chorus are interested in finding new ways of expression in their vocal improvisation and live performance. They also seek to create musical bridges between the East and the West, combining harmonically the miscellaneous national, musical, cultural and creative elements of the two traditions. They combine eastern and western musical instruments like canoun, bouzouki, trumpet, ethnic percussion, oud and more.
